

## Violence Prevention Network

Violence Prevention Network is an NGO that has been successfully active in the prevention of extremism as well as deradicalisation and disengagement support for over two decades. Over the years, the Violence Prevention Network team has acquired internationally recognised expertise in working with ideologically motivated offenders by working with people at risk from right-wing extremism and Islamism.

## GRIDD PRO - Social Diagnostics Guiding Resilience, Integration, Disengagement & Development

GRIDD PRO - Social Diagnostics is a case management tool and collection of methods for counselling practice, evaluation and reporting for use when working with radicalised individuals. Developed by Violence Prevention Network, it leverages more than 20 years of interdisciplinary expertise in preventing extremist violence. Forged through intensive collaboration between practitioners and academics, GRIDD PRO - Social Diagnostics professionalises counselling practice, focusing on an individual's resources to enhance a disengagement process.

## GRIDD PRO - Social Diagnostics Benefits

- Practical solutions: Multiple methods for use in a client-centric approach, ready for immediate application in everyday work.
- Holistic case analysis: Comprehensive evaluation of each individual case, including biographical work, based on needs assessment and resources-focused analysis.
- Efficient support: Simplifies and accelerates the documentation and analysis of each counselling case.
- Continuous reflection: Facilitates ongoing reflection and supervision of the process.
- Flexibility and adaptability: app and template are dynamically adaptable, accommodating the non-linear progression of counselling and disengagement processes.

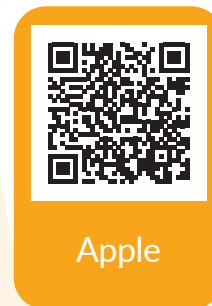

## Instruction and training

To familiarise users with GRIDD PRO - Social Diagnostics, we provide comprehensive training. This includes the basics of GRIDD PRO - Social Diagnostics and the use of the app. Participants receive a detailed introduction to the approach and how to use the toolkit. Counsellors are equipped to conduct professional diagnostics effectively, through use of the app, template, and corresponding manual.

## Support through innovative technology

To support the daily work of counselors, GRIDD PRO - Social Diagnostics integrates a specially adapted app that is tailored to the specific needs in the field of social diagnostics. This app enables practical and time-saving use in counselling.
